LA CORVETTE ♦ THE LEADING MARSEILLE SOAP SINCE 1894

For more than 120 years, the Savonnerie du Midi has been making traditional Marseille soaps in the best tradition, of which La Corvette is a supreme example: a blend of history, tradition and expertise, often imitated but never equaled. Marseille soap La Corvette is following the traditional recipe which consists of soaps manufactured in Marseille or in les Bouches-du-Rhône, boiled in a cauldron, using only vegetable oils, with no chemical additives (no dyes, no perfumes and no preservatives). La Corvette soaps respond to everyday needs a return to a local expertise, a strong historical identity with a product that guarantees quality for all.

La Corvette offers a wide range of products from this historic tradition, adapted for contemporary needs and suitable for all the family, while respecting both the environment and traditional French expertise. Many of these authentic products – designed either for body care or domestic use – bear the ECOCERT label. Savonnerie du Midi is a member of the COSMEBIO charter since 2007.

La Corvette is proud of its Marseille origins! The term La Corvette originally referred to the small three-master that set sail from the port of Marseille on discovery missions around the Mediterranean sea. In the 19th century they were used to supply Marseille's soap factories with raw materials. The voyage continues to this day, with traditional products designed to meet modern needs.

Ask for the registered logo

Four of the last remaining soap factories in the Bouches-du-Rhône (south of France), including the Savonnerie du Midi decided to join forces in 2011 by setting up the Union of Marseille Soap Professionals (UPSM), with the aim of protecting real Marseille soap. They signed a charter which guarantees the composition of traditional Marseille soap, the origin and the manufacturing process. La Corvette products are fully compliant with the requirements set out in this charter and bear the registered logo.

TRADITIONAL

MARSEILLE SOAP

Marseille soap has always been glorified for its many virtues: it is natural, hypoallergenic and environmentally friendly – and is made in France. It can be used for household cleaning as well as body care and is perfect for those who want to take care of their health and wellbeing, while looking after the environment. Our Marseille soaps are certified by ECOCERT, based on the COSMOS standard. There are manufactured according to the charter of the Union of Marseille Soap Professionals, controlled by CERTIPAQ, independent certifying organism.
